

Benjamín Ragnarsson

About me

I have completed the academic requirements for a BSc in Software Engineering at Reykjavik University and will graduate in October 2026, with a GPA of 8.8/10.

I have a strong foundation in software development and experience with backend and full-stack solutions using C#, .NET, Python, Java, TypeScript, REST APIs, Docker, PostgreSQL, RabbitMQ, and microservices.

I also completed an exchange semester at Queensland University of Technology in Brisbane, focusing on cybersecurity, secure software development, AI, and data science.

I am quick to learn, detail-oriented, solution-focused, and comfortable working collaboratively in both software projects and professional environments.

Education

BSc in Software Engineering

Reykjavik University

2023 – 2026

Expected graduation: October 2026

GPA: 8.8

Completed all BSc degree requirements, with a focus on software development, backend systems, architecture, databases, distributed systems, testing, and project management.

Exchange studies

Queensland University of Technology (QUT)

2026

Brisbane, Australia, 30 ECTS

Exchange studies focused on cybersecurity, secure software development, AI, and data science.

Menntaskólinn við Sund

Upper Secondary School Diploma

2020 – 2023

Key Courses

Web Services — 9.5

Backend development using C#/.NET and ASP.NET Web API, including REST APIs, microservices, security, and deployment.

Software Processes and Project Management — 10

Agile, Scrum, project planning, prioritization, and teamwork.

Mobile App Development — 10

Design and development of mobile applications and integration with external services.

Software Projects

2026

Einkaklúbburinn endurhugsaður – Arion Bank

BSc final project, 2026

- Backend development for Arion Bank's customer system.
- C#/.NET, ASP.NET Core, REST API, Entity Framework Core, SQL Server, RabbitMQ, NServiceBus, Docker and Azure DevOps.

2025

Dr. Cinema – Mobile App for Kvikmyndir.is

TypeScript · React Native · Expo · REST API · CSS

- Mobile app using the Kvikmyndir.is API for movies, showtimes, locations and ticket purchases.
- Built in TypeScript with React Native and Expo, including REST API integration and user authentication.

2025

Cryptocop – Microservice Ordering System

Web Services final project

- Built a containerized .NET microservice ordering system for cryptocurrency purchases.
- Used PostgreSQL, RabbitMQ, and JWT, with background services for payment confirmation and email.

2025

Real Estate Platform – Full-Stack Web Project

Python/Django · PostgreSQL · REST API

- Built a full-stack real estate platform with separate flows for buyers and sellers.
- Designed backend services, database structure and complex user flows.

2025

E-Commerce Microservices Platform

Full-stack / backend microservices project

- Built a containerized e-commerce system using C#/.NET, REST APIs, API Gateway, PostgreSQL, EF Core and Next.js.
- Used Auth0, JWT, M2M authentication and Docker.

Work Experience

2022

-

2025

Landslagnir ehf.

Plumbing and construction assistant

- Worked on a range of plumbing and construction tasks, including underfloor heating and general plumbing.
- Developed strong teamwork, precision, and responsibility while working on demanding projects.

2023

-

2024

Sláttuverk

Seasonal work, gardening and landscaping

- Worked on lawn care, paving, and general landscaping.
- Developed strong work ethic, attention to detail, and good teamwork skills.

2022

Vatn og veitur

Warehouse, deliveries and driving

- Prepared customer orders and handled deliveries to and from worksites.
- Gained experience in customer service, organization, and independent work.

2021

Gára

Passenger transport for cruise ship guests

- Assisted foreign passengers with luggage and provided guidance on rental cars and travel.
- Gained experience communicating in English and providing customer service.

Skills

Programming & Tech

- C#, .NET, ASP.NET Core
- Python, Django
- Java, TypeScript, React Native
- REST APIs, JWT, Auth0
- Microservices, RabbitMQ
- Docker, Docker Compose
- PostgreSQL, SQL Server
- Git, GitHub, Azure DevOps

Software Development

- Backend Development
- API Design
- Databases & EF Core
- Security & Authentication (M2M)
- Agile, Scrum
- Project Management
- Testing & Debugging

Personal Skills

- Problem-Solving
- Adaptability
- Attention to Detail
- Team Collaboration
- Initiative & Independence
- Communication Skills
- Organized & Reliable
